

Dan Vincent G. Teodoro

Santa Maria, Bulacan | 09164180808 | vincentgteodoro@gmail.com

OBJECTIVES

Motivated and detail-oriented IT student with a strong foundation in software development, web technologies, and database management. Passionate about problem-solving and optimizing user experiences, with experience in HTML, CSS, JavaScript, PHP, and SQL. A quick learner and adaptable team player, eager to apply technical knowledge in a practical setting. Currently seeking an internship opportunity to fulfill academic requirements while gaining hands-on experience in a dynamic work environment.

WORK EXPERIENCE

Highly Succeed Inc., <i>Web Developer and SQA Tester</i>	Santa Maria, Bulacan <i>Date: March 2025 to Present</i>
--	---

- Developed the front-end user management module of the Unleash Web Portal using React, enhancing user interface functionality and responsiveness.
- Collaborated with the development team using GitHub, later transitioning to Bitbucket for version control and repository management.
- Conducted software quality assurance testing for the Unleash App, filing 6 detailed bug reports through Jira, and tracking development progress via Jira boards.
- Performed regression and time duration testing to ensure stability, performance, and consistency across updates.
- Worked with separate Jira boards to manage issues and coordinate feature development tasks.
- Actively participated in departmental meetings to align project goals, priorities, and issue resolution within an Agile development environment.

CAPSTONE PROJECT/ THESIS

Pawsitive: Veterinary Clinic Management System <i>Project Manager, Backend Developer, SQA Tester</i>
--

- Led developing and implementing a web-based system for Pet Adventure Clinic, improving appointment scheduling and medical record management.
- Designed a database that improved data retrieval speed by 40%, ensuring 99.9% uptime.
- Implemented role-based access control for veterinarians, receptionists, and pet owners.
- Developed and tested a calendar booking system with automated email reminders, reducing missed appointments by 30%.
- Conducted software quality assurance (SQA) testing, ensuring system reliability, security, and compliance with data privacy regulations.
